

DETAILED ACTION

Response to Applicant's Letter

1. The response received on 6/04/2008 has been reviewed and considered with the following results:

As to the rejections to claims 10-15 and 17, under 35 U.S.C. 112, 1st paragraph, Applicant's clarification has overcome the rejections; as such, the rejections have been withdrawn.

In view of Applicant's response with respect to the previous prior art rejections mailed on 4/04/2008, Applicant's arguments have been considered and found persuasive; as such, the rejections have been withdrawn. Therefore, the case is found to be in condition for allowance for the reasons as set forth below.

REASON FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: the claims are now allowable in view of the arguments presented in the 4/04/2008 response, specifically the applied prior art is not seen to disclose or suggest the limitation as preventing a first of the select signals that is in the first logic state from being provided to the multiplexer until the other select signals are in a second logic state.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
